

## **Removal of dangerous life-threatening trees**

- Acceptance of public complaints about trees injurious to life and property on public complaints.
- Inspection of work authorities/industrial officials about trees harmful to their property and life on public complaints.
- Taking records of the relevant property.
- Taking records and giving orders to cut and remove within 14 days after identifying the danger.
- Postponing again for 07 days in case of non-compliance.
- When the orders are not accepted for the third time, contact the court and get cut off by the institution and collect the related fees.
